

Nightingale Community Hospice Trust

“together we can make a difference”

Sponsoring Events

The organisations your company support say everything about what you stand for. Use sponsorship to underline the synergy between your company and the Nightingale Community Hospice Trust, highlighting a shared commitment to helping those who need us during their most difficult times.

Throughout the year we organise lots of different events - Corporate golf day; ball; barn dance; lights of love. By sponsoring any of these events you are promoting your corporate responsibility to other businesses, and to your customers and helping us to reduce the cost of organising such events and therefore maximise profits.

In addition activities can be sponsored, such as the cost producing our twice yearly newsletter, or the costs associated with the services we offer. We are always looking for funding to support our events, either for fundraising or service activities.
